

Dear Prospective Dentist,

I hope this letter finds you well and refreshed as we start a new year. I write to you today in hopes of gaining an opportunity to share with you the experience and culture I have come to love at Family Health Care.

Like many, I started my professional career in the private sector and worked hard to grow my private practice. It was then and is now important to me that I am in charge of my own schedule and also there for my family. I knew that I wanted to be some place calm and “home-like” – so naturally, I thought private practice was the best option for me.

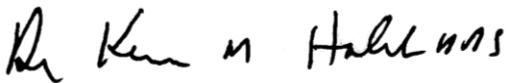

After quite a few years of successfully building a client base and getting the grasp of running my own office, I was introduced to Family Health Care – a non-profit FQHC organization in mid-Michigan. It opened my eyes to the world of health care and the meaning of service. Not only have I been able to keep the same expectations of control that I had in private practice, but I have also become part of the community.

When I say community, I am not just talking about the people that we serve, but rather the world of health professionals as a whole. At Family Health Care, I work beside Medical Doctors, Pharmacists, and Behavioral Health Therapists who are just as excited as me to put a smile on someone’s face. We have created a network that allows for unparalleled treatment and attention to patients that I could never manage on my own. As a provider and administrator here, I no longer have to worry about the administrative headaches of a private practice while still negotiating some nice incentives and benefits.

I have attached a paper with some highlights of who Family Health Care is and what we have to offer. I think that you will find some of the information eye catching and worthwhile. I have cleared some time in my schedule for a phone call with you and a tour of our facilities. Please give me a call once you have had some time to look over the attached information.

I look forward to talking with you soon.

Best,

Kevin Halub, DDS  
Chief Dental Officer

(231) 689-7159 – I see patients daily, so please leave a message if I don’t answer.

# Family Health Care

## Our Mission & About Us

"To provide quality, integrated and comprehensive health care services that are accessible to all."

Family Health Care, a non profit, was one of the first community health centers in the nation to develop a "one-stop shopping" concept for health care services. We've been in the business of taking care of families since 1967. We offer our services at health centers and outreach sites in Lake, Newaygo, Wexford and Missaukee counties.
